A PATH ACROSS A DECADE

It is our education system that is failing our students

73%

of U.S. 8th graders scored below NAEP Proficient in math (2024).

2.1×

STEM median wage vs non-STEM (\$103,580 vs \$49,500, 2024).

+8.1%

Projected STEM job growth 2024–2034 vs 2.7% non-STEM.

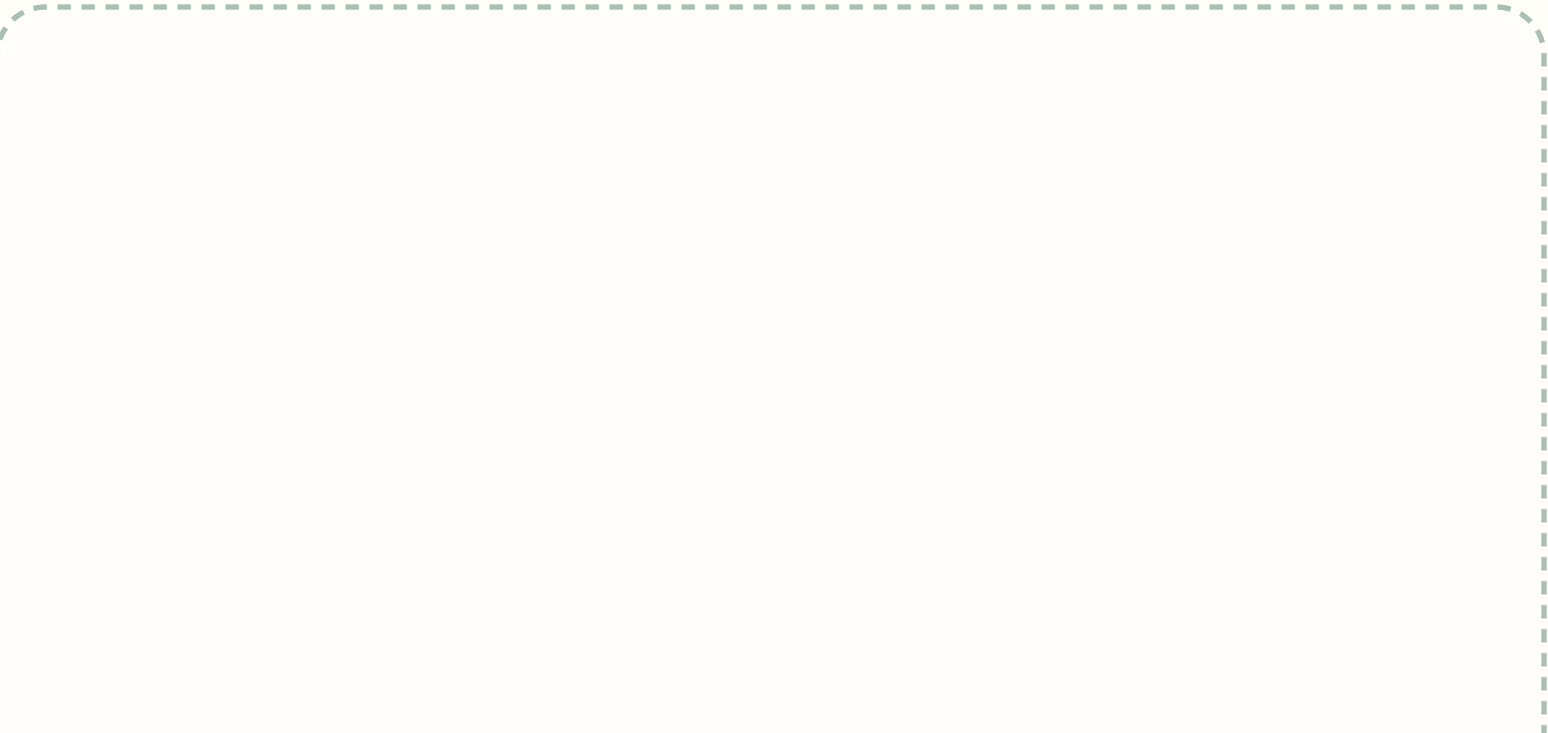

CUSTOMER DISCOVERY GRAPH

Paste Twin Cities interview chart

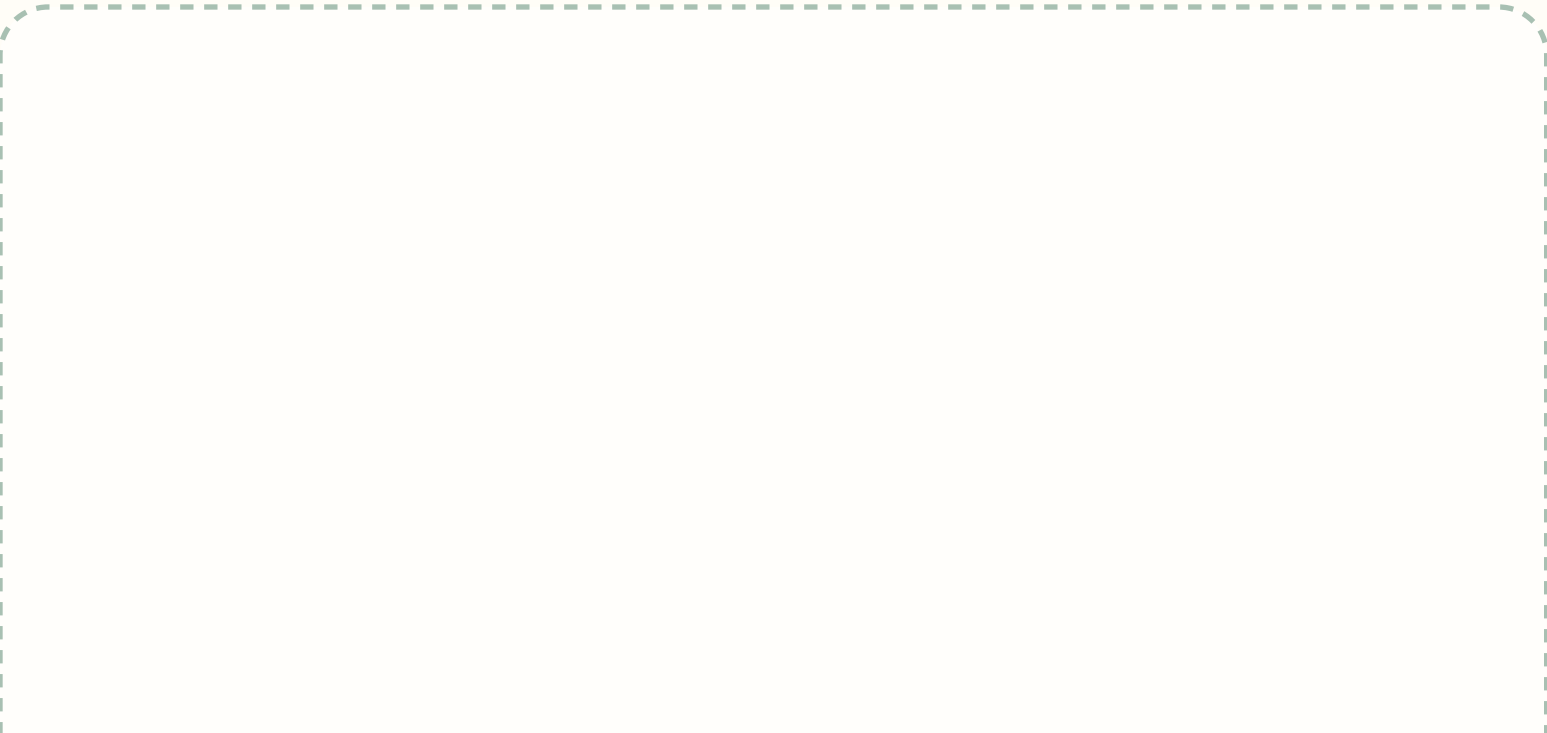

¹ NCES NAEP Math 2024 G8: ~27% at/above Proficient □ ~73% below (nationsreportcard.gov). NAEP Proficient ≠ state grade-level. ² BLS Employment Projections STEM vs non-STEM wages & growth 2024–2034 (bls.gov/emp).

What are their feelings towards math

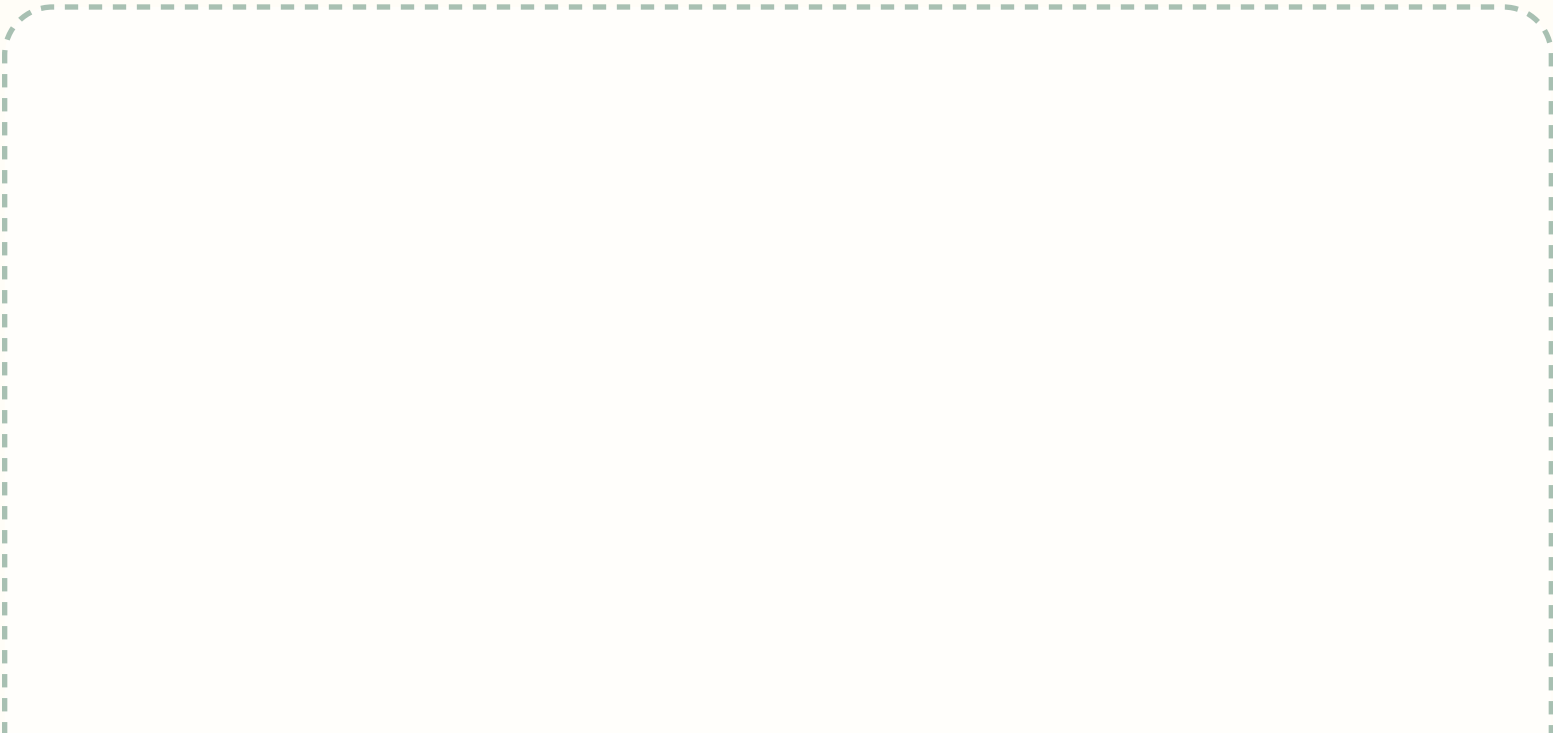

Parents: this is what the road to their future looks like from the inside.

BLAKE

What if what’s failing them is a rigid, outdated one-size fits all model

School built for the industrial era. Students living in an AI economy.

That’s where MindCraft comes in

vs Khan

They library content. We map the gap, then a human starts there.

vs Wyzant / marketplace

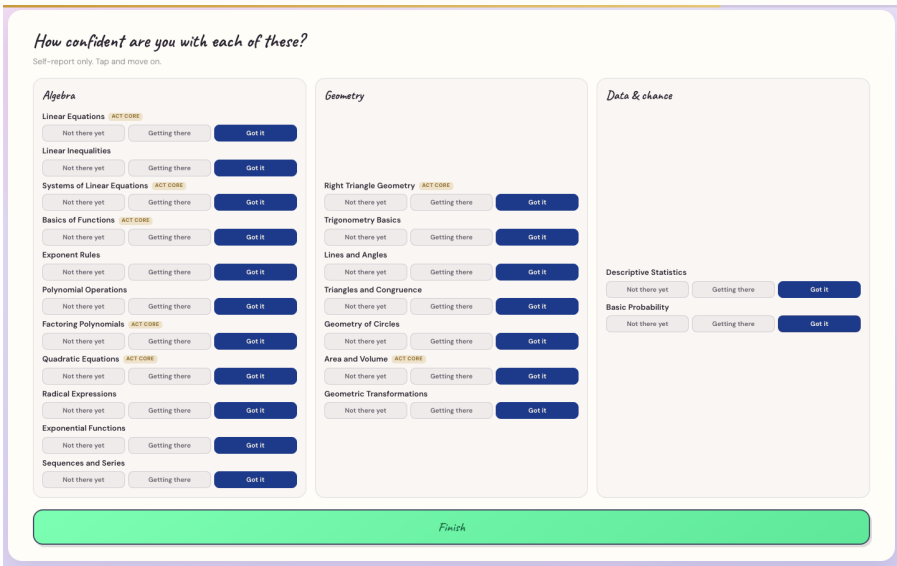

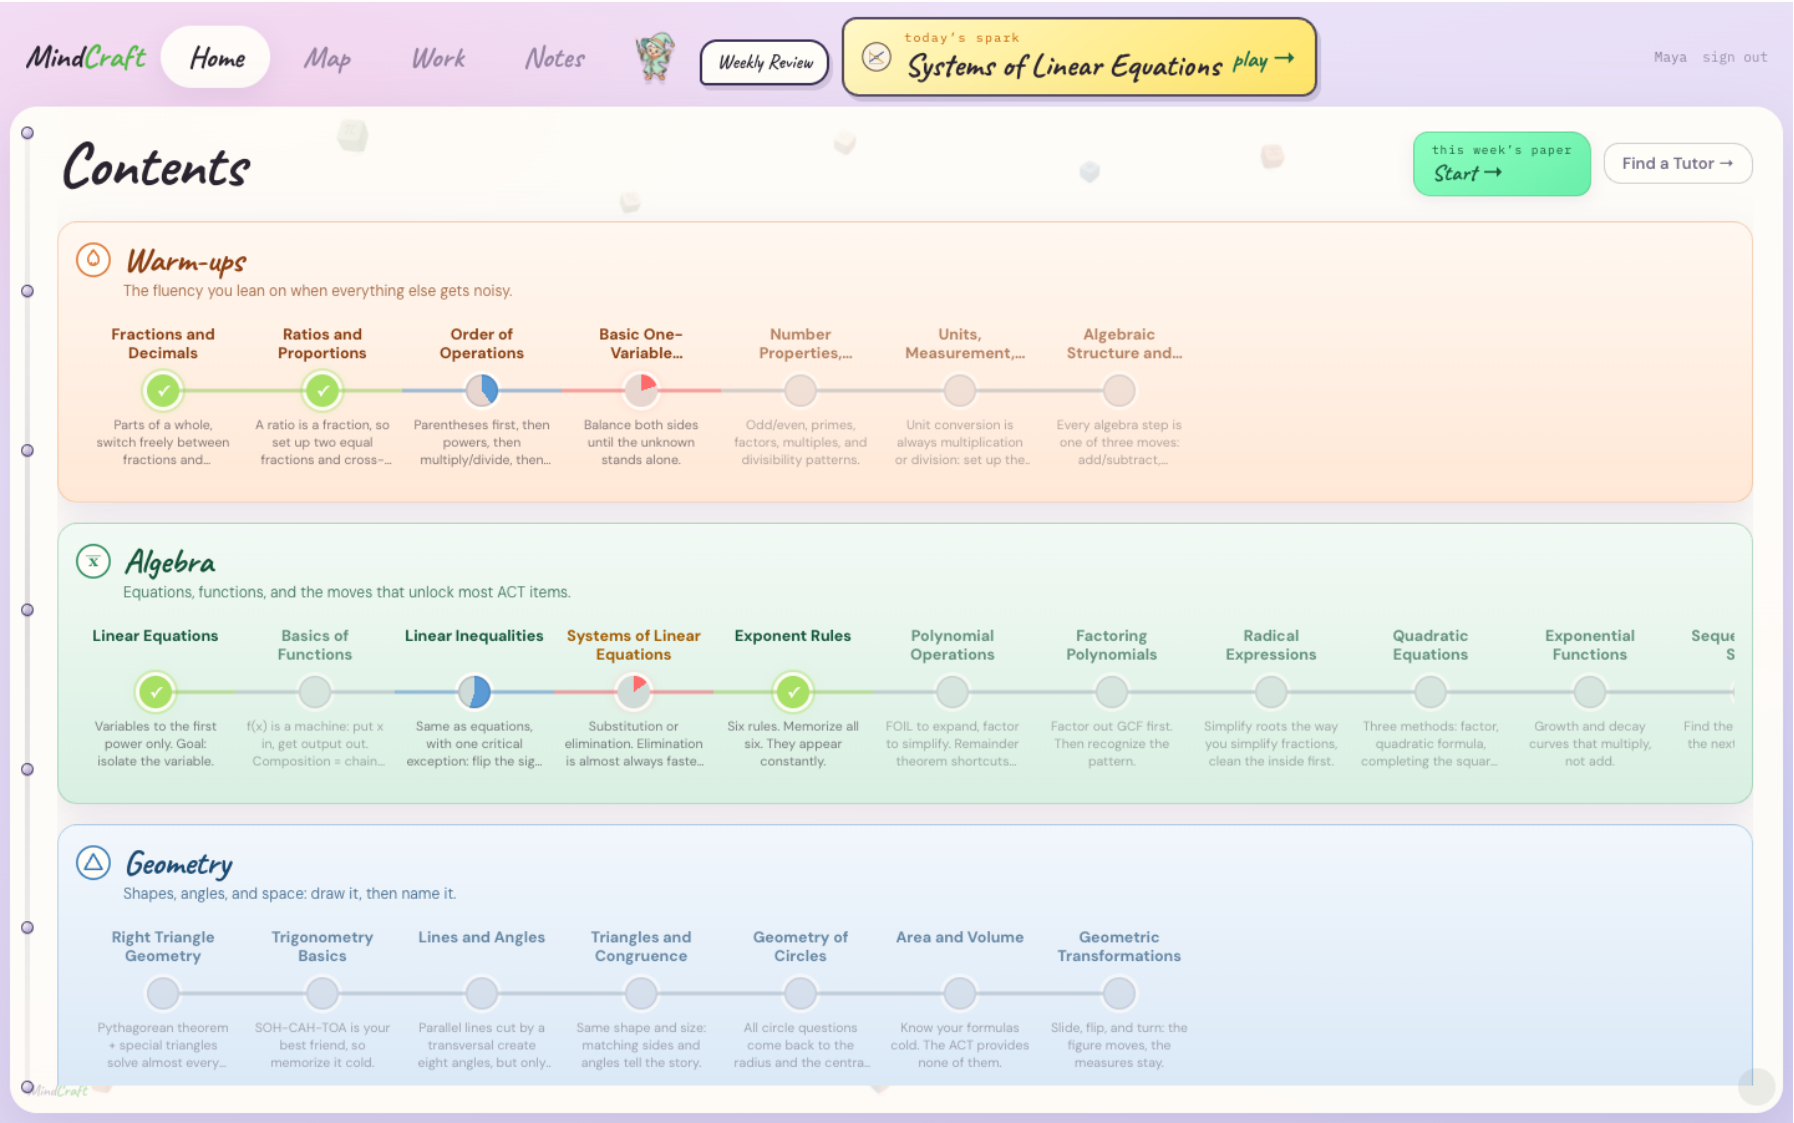

They sell detective time. We brief the tutor before minute one.

vs ChatGPT / AI tutors

Answers are cheap. Diagnosis + accountability stay scarce.

Customizing math education

ACT Math front door. Living record between student and tutor.

STANFORD CONVERSATION
Human learning + technology PhD

Well, does it actually work?

Literature on tutoring shows consistent, substantial gains from high-quality 1:1 and small-group instruction (pooled ~0.37 SD across PreK–12 RCTs).¹ Peer models at college, like Macalester SciQ, put students in both seats.

SEB SECTION

Putting Seb on the spot

SEB REVIEW / VIDEO STILL

France vacation · coming back as tutor

¹ Nickow, Oreopoulos & Quan (2020), NBER WP 27476 / J-PAL: tutoring pooled ~0.37 SD. Not Bloom 2-sigma. SciQ: Macalester peer tutoring (spoken).

FOR THE INVESTORS

Our financials

OVERLAY YOUR DIAGRAMS HERE

The Ask

High school teachers whose students worry about ACT. We will help set up school ↔ college dialogues on AI in Minnesota. Macalester is actively looking to do this.

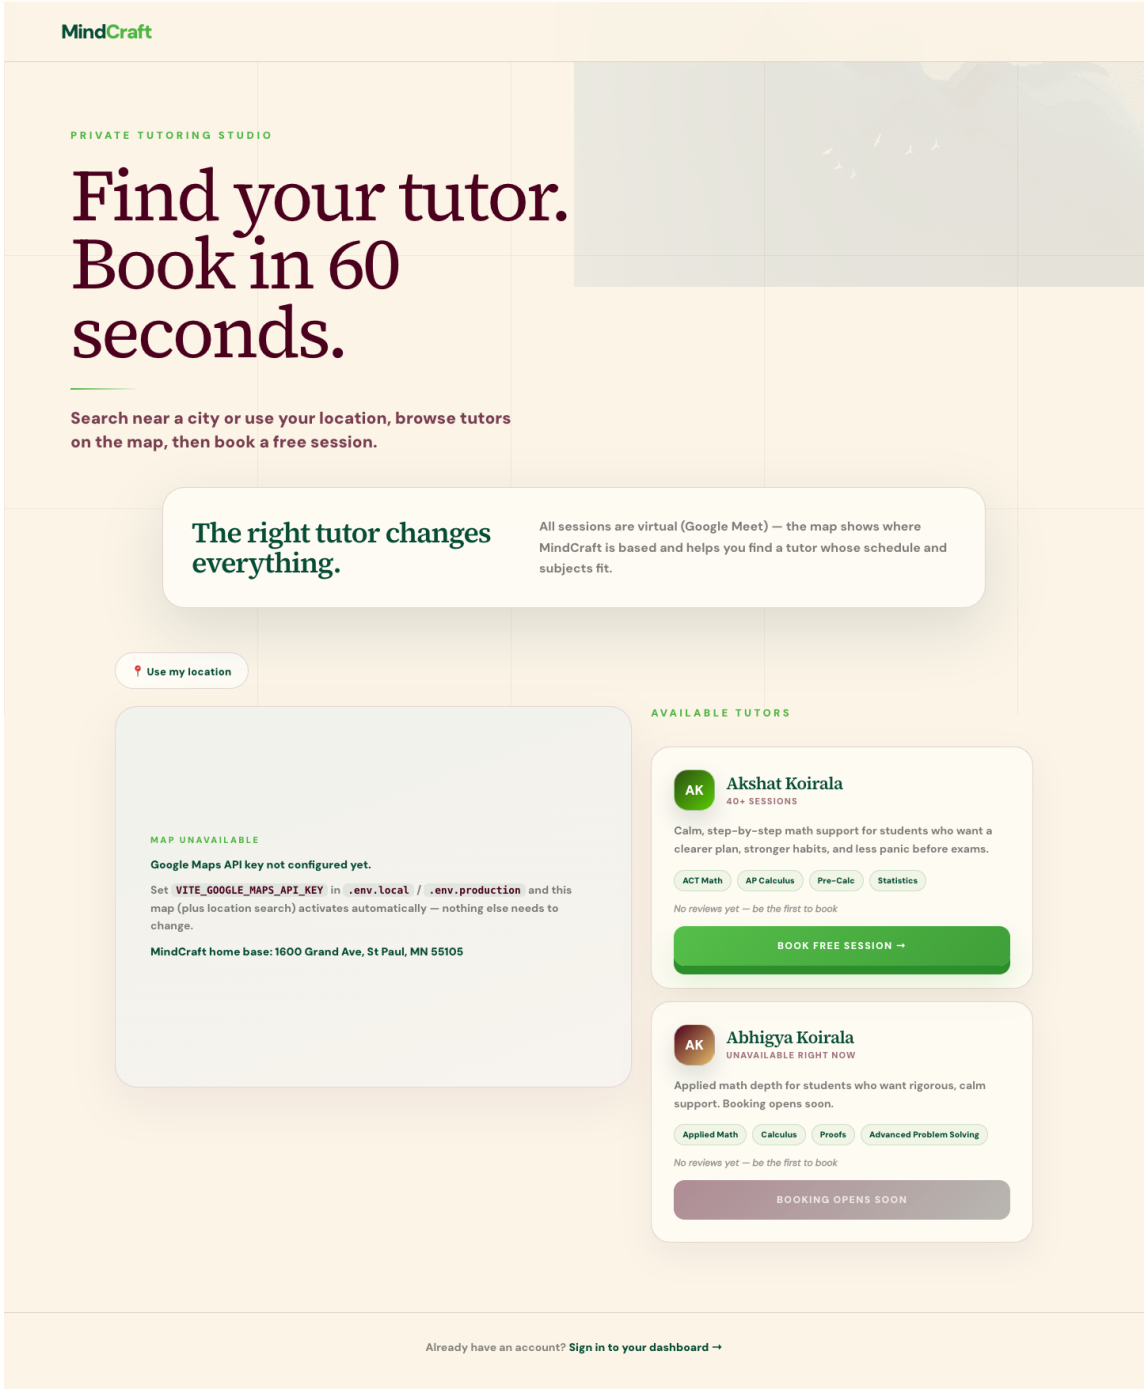

Parents whose kids see math as a challenge. We reframe that into strengths.

Tutors who want hours that are not detective work. Minnesota community is hired. Now we need your intros.

MACALESTER AI / SCHOOL DIALOGUE EVENT

img_theevent@MAC

EVERY TUTOR

ACT Math first. Gap-ready brief before session one.

+ PIANO / MUSIC

College libraries. Same trusted human.

+ CODING / ROBOTICS

Complementary skill parents get excited for.

IDEAL CUSTOMER

If you want your kid competent for today, bring them to us.

Not a verdict. A map. A college tutor who starts where it broke.
