

AT THE END OF THIS PITCH

Never work alone. Office hours from your room.

Students, mentors, any subject.
Four minutes to make the case.

Smile. You invited them. Own the room.

Stuck on the work.
AI half-answers.
You're doing it alone.

Paper's due

Code won't run

Quadratics again

Still stuck

One fixed tutor doesn't match real work.

Traditional tutoring

- One tutor for one subject
- Locked into recurring sessions
- Forty minutes finding the gap
- Progress lives in one person's head

MindCraft

- Match the mentor to the moment
- Calculus, a deck, code, an essay
- Attached to your actual work
- In Solver: briefed before session one

WHAT WE ARE

Office hours
from your room —
for whatever you're working on.

TODAY'S WORK HAS A REASON

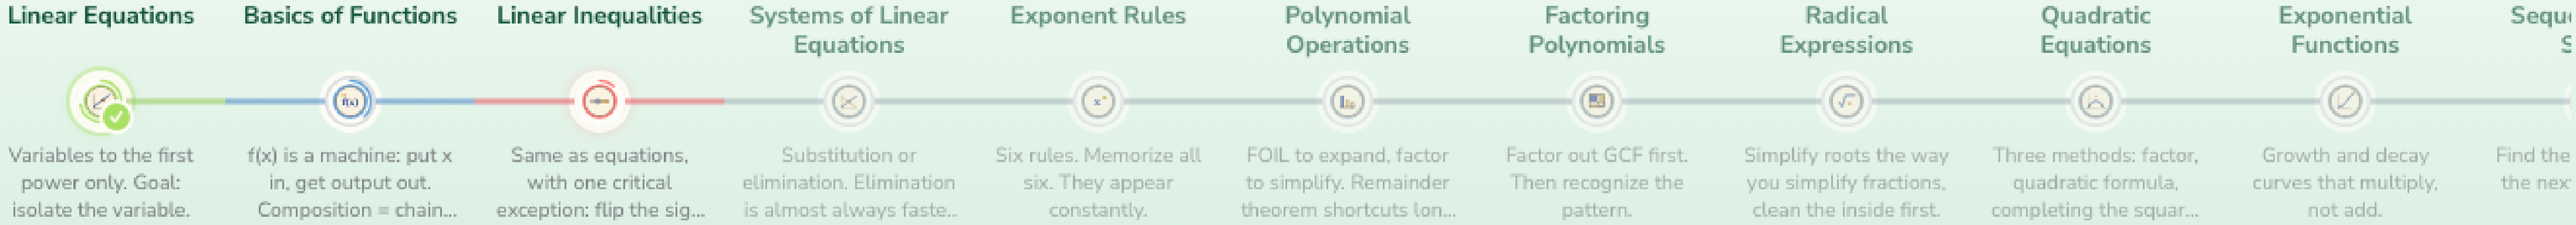

Warm-ups

The fluency you lean on when everything else gets noisy.

Algebra

Equations, functions, and the moves that unlock most ACT items.

Geometry

Shapes, angles, and space: draw it, then name it.

PRIVATE TUTORING STUDIO

Find your tutor.
Book in 60 seconds.

Search near a city or use your location, browse tutors on the map, then book a free session.

The right tutor changes everything.

All sessions are virtual (Google Meet) — the map shows where MindCraft is based and helps you find a tutor whose schedule and subjects fit.

WHY US

Big picture. Allen wrench.

AKSHAT · BIG PICTURE

Why the student gave up

Eight years watching the broken hour.

BLAKE · ALLEN WRENCH

Why the engine knows

Builds the map tutors can trust.

THE ASK

Who should we talk to?

- 01 A student stuck on real work, any subject
- 02 A college mentor ready to help outside class
- 03 An ACT parent or counselor — still a channel
